

# The Role of a Job Coach

## Role #1

Our job coaches facilitate the development of employer-employee communication between the employer and individual in services to ensure a seamless integration into the workplace.

## Role #2

Job coaches train individuals on accessing generic forms of transportation, assist in acquiring bus passes and help map bus routes, enabling employees to arrive to work on time and ready to go.

## Role #3

Job coaches participate in initial job searches by assisting with applications and interviews, if necessary.

## Role #4

Job coaches work to develop community based assessment sites in order to assess the capabilities of the individuals they support.

## Role #5

Job coaches document the progress of employees on a regular basis to ensure job related goals are being met.

## Role #6

Job coaches assist employees with developmental disabilities in acquiring necessary skills and supports at their job sites to maintain long-term, satisfying employment.
